

Air Force Petroleum Office

Integrity - Service - Excellence

AFPET Mission Briefing

U.S. AIR FORCE

Lt Col Jeff Moyer

U.S. AIR FORCE

Mission and Vision

MISSION

Strategically focus the effort of the Air Force Fuels community to develop and sustain core competencies in order to deliver state of the art support and service to the warfighter.

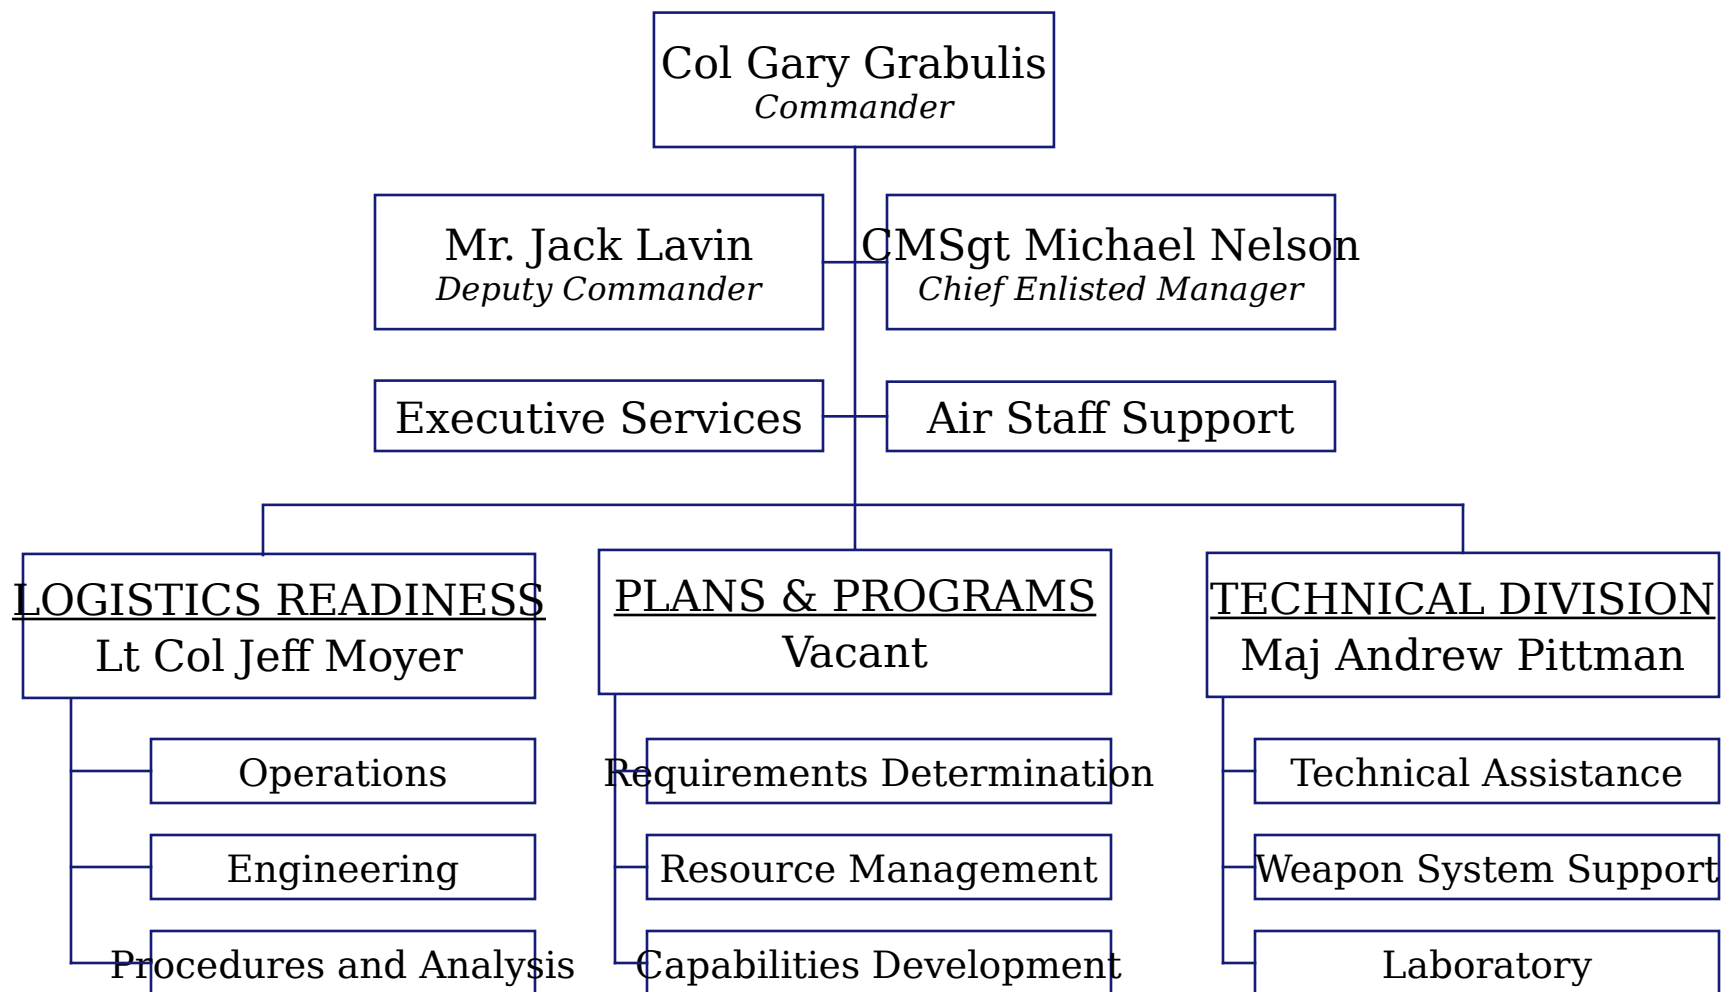

VISION

Build an Air Force Fuels Service Control Point that is mission concentrated, agile, flexible and warfighter focused; which provides mission oriented materiel, services and information with minimal infrastructure, manpower and costs.

API, ASTM, SAE, NPMA, PEI

Major Commands

Fuels Office, Transporters, Civil Engineers

Field Units

Fuels Management Flights, Transporters, Civil Engineers

The Air Force Petroleum Office

U.S. AIR FORCE

AFL Functions

- **Logistics Readiness Division (AFL)**
 - **Operations**
 - Vehicles procurement / requirements
 - Equipment procurement / requirements
 - Warfighter support through DESC Contingency Operations Center
 - **Procedures and Analysis**
 - Technical Orders (TOs)
 - Air Force Instructions (AFIs)
 - Mishap reporting and analysis
 - **Engineering**
 - Military Construction (MILCON)
 - Minor Repairs and Environmental (MR&E)

U.S. AIR FORCE

AFF Functions

- **Plans and Programs Division (AFF)**
 - **Requirements Determination**
 - Plan and coordinate fuel requirements for the AF
 - Fuel transaction based processes
 - **Resources Management**
 - Manage personnel actions for the organization
 - Plan and execute the AFPET financial budget
 - **Capabilities Development**
 - AF single point of contact for Fuels Automation System (FAS)
 - Develop and integrate automated information systems

U.S. AIR FORCE

AFT Functions

- **Technical Division (AFT)**
 - **Technical Assistance**
 - Fuels emergency response team
 - Product and equipment deficiency experts
 - **Weapon Systems Support**
 - Coordinate and implement POL related weapon systems technical requirements
 - Deployed technical support provider to in-theater POL operations
 - **Laboratory**
 - Quality Surveillance testing for fuels, propellants and chemicals: Space launch and fuel quality laboratories
 - Investigate source and cause of unknown contaminants and perform trend analysis

U.S. AIR FORCE

Initiatives

- **Fuels operational readiness capability equipment (FORCE)**
- **Negotiate Performance Based Agreement (PBA) between HQ USAF/ILGP and DESC**
- **Develop and implement a fuels knowledge-base application**
- **Promote a data integration environment to satisfy logistics information requirements**
- **Employ the Air Transportable Theater Lab Set (ATTLS)**

U.S. AIR FORCE

Summary

- **AFPET is strategically and geographically located to provide the best possible service and support to the warfighter and POL Community**
- **Direct joint warfighter support crossing a spectrum of operations—fuel handling, fuel servicing, and fuel quality**
- **The sun never sets on the Air Force Petroleum Office**
